

USE-CASE FLOW SPECIFICATION

Problem Statement #40 – Student Startup Crowdfunding Platform

Use Case	UC-08 – Release Funds
Primary Actor	Faculty Committee
Goal	Release the funding tranche to the Student Founder only after the predetermined project milestone has been verified and approved.

1. Preconditions

- The crowdfunding campaign is active and has a predetermined funding milestone.
- The Student Founder has completed the milestone and submitted the required milestone evidence.
- The Faculty Committee has access to the submitted evidence for review.
- The corresponding funding tranche and release amount are defined in the campaign.

2. Main Success Scenario

1. The Faculty Committee reviews the milestone evidence submitted by the Student Founder.
2. The Faculty Committee verifies that the evidence satisfies the predetermined milestone requirements.
3. The Faculty Committee records an approval decision for the milestone.
4. The system verifies the recorded milestone approval and identifies the corresponding funding tranche.
5. The system verifies that the campaign is eligible for the tranche release.
6. The system determines the amount to be released for the approved milestone.
7. The system initiates the fund transfer to the Student Founder through the payment processing gateway.
8. The payment processing gateway successfully processes the transfer.
9. The system updates the campaign record to show the tranche as released.
10. The system records the fund-release transaction.
11. The system notifies the Student Founder that the tranche has been released.
12. The use case ends successfully.

3. Postconditions

- The approved funding tranche has been released to the Student Founder.
- The released amount is recorded against the campaign.
- The fund-release transaction and milestone approval decision are stored in the system.

4. Alternate Flow – Milestone Not Approved

1. The Faculty Committee reviews the milestone evidence and does not approve the milestone.
2. The system records the milestone as not approved.
3. The system does not release the corresponding funding tranche.
4. The system informs the Student Founder that the tranche cannot be released until the milestone is approved.
5. The use case ends without releasing the funds.
